

Dear Parents,

We're living in unprecedented times. None of us in living memory have had to face a situation that is staring at us right now. We're all trying to make sense of it all. With the school closed down, our foremost thought is to ensure that students are not deprived of opportunities to learn and grow.

This is why Avishkaar has launched a special **Free Online Coding Course for Beginners** where any student can come to terms with and grasp the basics of coding and embark on a journey towards learning a new skill.

What will children learn:

- Basics of coding - algorithm, flowchart, loops and variables
- Introduction to the concept of Simulation
- Coding an animation sequence
- Designing a Mood Badge

This course is being offered for free especially for students of your school. In order to avail this offer, you will need to fill in details on the following link:

<http://www.avishkaar.cc/online-coding-course-for-schools?code=929292>

Access Code: 929292

We have expert trainers who will guide the students along the way solving their doubts or any queries that they may have while making it a fun, exciting adventure for them.

If you face any difficulties in using this code and accessing the course, please feel free to reach out to us on support@avishkaar.cc or WhatsApp us on +91-8506931515

Regards,

Team Avishkaar
